I ought to know— I grow tobacco

You can't beat a Camel, because you can't beat the tobacco that goes into Camels.

That's why Camels are the choice of men who know and love fine tobacco. They know what makes Camels so smooth, so fragrant and mellow-mild.

They'll tell you that the expert Camel blend of choice Turkish and Domestic tobaccos makes a cigarette smoke you can't equal—no matter what you pay.

But it doesn't take an expert to tell Camel quality. You'll spot it the very first puff. Try Camels yourself.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

You should protect the health and happiness of your children by keeping the proper remedies handy at all times. Children frequently are taken ill suddenly and by having in the home the simple remedies, so often used for them, in many instances, you are able to ward off serious spells of sickness. When you need reliable drugs and drug store things let us supply your needs.

(Prepared by the United States Department of Agriculture.)
Experiments to determine the most desirable rations and methods for wintering steers were continued last year at Lewisburg, W. Va., by the United States Department of Agriculture, co-operating with the state agricultural experiment station. Sixty two-year-old steers, averaging 927 pounds in weight, were divided into six lots of ten each and wintered for a period of 128 days, beginning December 23, 1919. The greatest gain—63 pounds—was made by the lot fed on a daily ration of 25 pounds of silage, 5.4 pounds of straw, and one pound of cottonseed meal. Other rations and gains were: Silage (40 pounds), gain, 79 pounds;

silage (30 pounds) and cottonseed meal (one and a half pounds), gain, 67 pounds; silage (25 pounds) and mixed hay (eight pounds), gain, 63 pounds; mixed hay (20 pounds) and ear corn (two pounds), gain, 25 pounds; silage (30 pounds), gain 22 pounds.

The steers used in the wintering experiments at Lewisburg were grazed on pasture to determine the effect which the different rations fed and methods of wintering had on subsequent pasture gains.

Every Great Book.

Every great book is an action, and every great action is a book. All who would study with advantage in any art whatsoever, ought to betake themselves to the reading of some sure and certain books oftentimes over; for to read many books produceth confusion, rather than learning, like as those who dwell everywhere are not anywhere at home.—Martin Luther.

COL. ARMSTRONG'S COMMENT ON CENSUS REPORT OF KENTUCKY HORSES

The War Department is Interested in the Increase of Pure-Bred Horses

Greatly better of course than the number of pure-bred horses, particularly those of the thoroughbred type, on which the War Department must depend for its cavalry mounts in case of national emergency.

The above is a passage from the statement by the Frank S. Armstrong, Chief of the U. S. Army Remount Service, relative to the 1920 census of Kentucky horses.

The unsuccess of practical, patriotic men like Colonel Armstrong over the situation was amply justified by the lesson of the last great war, which so strikingly demonstrated the value of the horse in connection with modern warfare and revealed what would have become a pitiful shortage had the Germans held out only a very few weeks longer than they did.

Nor must we forget the importance of breeding better horses more extensively in times of peace. Better bred horses mean better work horses; better prices for them, and a readier market.

The 1920 census figures indicate that Kentucky, as usual, will lead her sister states as to both number and class of horses, but even we are far from approaching what should be our quota in either count.

Colonel Armstrong's statement in full is as follows:

"Despite the very small amount of pure-bred stock, as compared with the total number of horses in the state, I believe that, when similar figures for the other states become available, a comparison of all will show that Kentucky still holds its rank as the foremost state in producing thoroughbreds."

"The relatively small percentage of thoroughbreds and of other classes of pure-bred stock included in the total number of horses in Kentucky, is a general, and not a local, situation, and the other states probably will show even smaller percentages. The same conditions, I am told, prevail with livestock other than horses, though probably not to the same extent as with the latter. The census report upholds and justifies the position taken by the American Remount Association that there is the utmost need in this country today of increasing the number of pure-bred horses, particularly those of the thoroughbred type, on which the War Department must depend for its cavalry mounts in case of national emergency, and which it met with great difficulty in procuring in sufficient numbers during the recent war. The national need of upbuilding and increasing American thoroughbred horses can not, in my opinion, be over-emphasized."

Remarkable Example of Prehistoric "Art" That Was Found Recently in Central France.

A few weeks ago a number of remarkable drawings were found in a prehistoric cave near Pecher, in central France. They were drawn on the shoulder blade of a mammoth.

They were found 27 feet below the ground and are believed to be about 20,000 years old. This picture is reproduced from an actual tracing of one of the drawings.

Heifer Buried in Haystack.

Looking for a month in a haystack now has its parallel in a haystack in a strawstack. A yearling heifer, which had been lost for five weeks, was eventually found on the lower third of Clay Center, Kas. The animal had fallen between two piles of straw and was held captive. It had lived on straw and had only a meager supply of food. Although very thin, it is believed the heifer will suffer no permanent injury from its experience. —Montreal Family Herald.

Buy a pipe—
and some P.A.

Get the joy that's due you!

We print it right here that if you don't know the "feel" and the friendship of a joy'us jimmy pipe—GO GET ONE! And—get some Prince Albert and bang a howdy-do on the big smoke-gong!

For, Prince Albert's quality—flavor—coolness—fragrance—is in a class of its own! You never tasted such tobacco! Why—figure out what it alone means to your tongue and temper when we tell you that Prince Albert can't bite, can't parch! Our exclusive patented process fixes that!

Prince Albert is a revelation in a makin's cigarette! My, but how that delightful flavor makes a dent! And, how it does answer that hankering! Prince Albert rolls easy and stays put because it is crimped cut. And, say—oh, go on and get the papers or a pipe! Do it right now!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidors with sponge moistener top.

To Make Friend of Toad.
The toad is not looked upon with any great amount of favor by the average person, and is generally thought of as being "ugly," while the old toad-hood superstition that holds the toad responsible for warts still lingers in many adult minds. In reality the toad is a powerful, friendly little creature that can be trained in a very few minutes to be "tame" and after a week or so can be made as affectionate as a dog. They are cleaner than any furred animal and are exceedingly interesting as pets.

MORE THAN HE COULD STAND

Dear Girl's Explanation of Her Deep Love Was Just a Trifle Too Strong.

"And do you really love me, Albert?" The girl gazed at him, feebly, her eyes now closed, the sweet moment of her tender was over.

"Yes, dear I do," she answered. "I love you more than I could ever and ever, in spite of everything. It could never be destroyed and no question. It is one of those things that come from the heart, and it is not a love that can be bought or sold. It is a love that is true and pure." "I am glad you feel that way," he said, "but I have often thought of it, and it frightened me. My love for you is like a mighty torrent of water that rushes on and on, ever powerful and strong. It is like a fire that burns to consume that burns brightly, ever and ever, in spite of everything. It could never be destroyed and no question. It is one of those things that come from the heart, and it is not a love that can be bought or sold. It is a love that is true and pure."

The love who had thought for this was really surprised by her words. He made a few comments, however, and left her. Something told her that she could never see him again. His business was that of a country insurance and his duties in the office and risk were too much for him. He was the assistant of so much life water and other business. (Chicago Daily News)

To Stop a Cough Quick

HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVES' O-PEN-TRATH, SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey in the throat combined with the healing effect of Groves' O-Pen-Trath Salve through the pores of the skin soon stops a cough. Both remedies are packed in one, and the cost of the combined treatment is 10c. Just ask your druggist for HAYES' HEALING HONEY.

Farms on Manhattan Island.
Some of the most valuable and productive real estate in the world is in the lower end of Manhattan Island, but there are still patches of vacant, unused land in those sections. There are even, according to the Rural New Yorker, two farms left on the island, though the land devoted to this purpose is rapidly diminishing. Eleven years ago the number of farms was 52, while in 1900 there were 184 farms on the island.

FOR RENT—Six room house, modern conveniences. See L. G. Callahan or John Chasote. 34c.

Before the Speech.
Some orators start with a rush, others begin quite slowly. A speaker we know has the habit of stribling meditatively across the stage once or twice before he begins his address. On one occasion we heard a lively young fellow in front of us whisper to his girl with reference to the peripatetic gentleman on the platform: "That, I suppose, is his preamble."—Boston Transcript.

Americans Speak 56 Languages.
Fifty-six different languages were spoken at one time in America. George Bird Grinnell, authority on the American Indian, reveals this in his March number of the Western Magazine. There were 56 different tribes of Indians speaking different dialects of the same language when the first white settlers came.

Electric Light Star Catches Fire.
A new kind of electric light, the "Star" light, was recently introduced in New York City. It is a small, round, glass globe, and is supposed to be a great improvement on the ordinary incandescent bulb. It is said to be a great improvement on the ordinary incandescent bulb. It is said to be a great improvement on the ordinary incandescent bulb.

Orator and Youngest President.
Theodore Roosevelt was the youngest President of the United States. He was 42 years old when he was elected in 1901.

Thousands of people are suffering from the effects of the influenza epidemic. It is a great misfortune to be afflicted with this disease. It is a great misfortune to be afflicted with this disease.

Wallace's Liverade is a great remedy for biliousness and constipation. It is a great remedy for biliousness and constipation. It is a great remedy for biliousness and constipation.

Dream Evidently Impressed Him.
St. Paul's cathedral is cracking up a bit, but to the average intelligence it is at least as "safe as houses." A city man whose place of business is in the shadow of the cathedral is not so sure about that. He had a wild dream in which he saw the vast building crumble up and demolish all the adjoining property in its fall. St. Paul's was his mind as a result that he at once went to an underwriter and took out a policy which will cover his loss if the mighty edifice collapses!

Why Not Buy the Best and Start Right?

¶ Everett Young bought a pig of me and won first in Fulton County Fair, first in Hickman Community Fair, and first at Kentucky State Fair, Louisville—a total of \$105 in premiums and—
SOLD HIS PIG FOR \$200.

¶ I sold the highest priced individual, also made the best average in the Kentucky Purebred Hampshire sale at Louisville, Ky., February 28, 1921. I have others for sale that will do the same.
